## SUMMARY

---

A committed Computer Science student at Universitas Multimedia Nusantara who thrives in coordinating and collaborating with others. Experienced in organizing and managing various events, ensuring smooth communication and execution. I enjoy working closely with teams to foster effective collaboration. Additionally, I have experience in developing visually appealing and user-friendly web applications, with a strong enthusiasm for music and graphic design.

## EXPERIENCE

---

### UMN ECO

Tangerang

ORTA (Website)

Jan 2024 - Dec 2024

- Gained hands-on experience in web development, focusing on building and improving user interfaces using modern frontend technologies.
- Learned and implemented Laravel, enhancing my understanding of PHP frameworks and backend integration with frontend components.

### Maranatha Youth Generation

Central Java

Creative Spesialist

Jan 2019 - Present

- Designed and produced visual content for church events.
- Managed social media platforms to enhance online presence and foster community engagement.
- Captured and edited photos and videos using Adobe Photoshop, Premiere Pro, and After Effects to support promotional efforts.

### HMIF x Garuda Hacks 5.0

Tangerang

Vice Venue Manager

Feb 2024 - July 2024

- Coordinating directly with the client to ensure smooth communication and alignment with event objectives.
- Managed logistics and setup for two collaborative events, ensuring all client requirements were met.
- Acted as the main point of contact for the client, addressing concerns and providing regular updates on event progress.
- Fostered a strong relationship with the client, providing continuous support to ensure a successful collaboration.

## HMIF UMN

Treasurer & Supervisor of RnD and Public Relation

Tangerang  
Nov 2023 - Present

- Managed budgets, expenses, and resource allocation.
- Supervised the R&D division, overseeing innovation and strategy development through workshops and projects.
- Suprvised Public Relations, fostering collaborations, handling external communications, and maintaining relationships with partners.

## PPIF 2024

## IF 231: Final Project

A website project was developed for Melali in Bali, an initiative promoting tourism and local experiences. My team and I are designing this platform using modern web technologies to ensure a user-friendly experience. I am responsible for full-stack development, responsive design, and deployment via Vercel, while also overseeing API integration and optimizing site performance across devices.

## Laboratory Assistant Requirement Project

[Link to Website](#)

This website was developed as a requirement for becoming a laboratory assistant, aiming to enhance laboratory management and coordination. I handled full-stack development, responsive design, and deployment via Vercel, while also integrating APIs and optimizing performance across devices for a seamless user experience.
